MEMORANDUM

SECURITY INFORMATION

FROM: Chief, FDS

SUBJECT: CACHINNO 4

Ref FDS Memo dated 29 May 1951; POC #898

1. The subject of Provisional Operational Clearance #898 is no longer being used under the same project as provided for in FDS memo of 29 May 1951. Formerly subject was used as an instructor for personnel in the AEROBUS project. Since operational contact with the SBONR group has been suspended, it is planned to utilize him in an indigenous instructor capacity in connection with the singleton agent program under Basic Plan AESOP.

2. Subject will be doing the same type of work for which he has been provisionally cleared. In our opinion, however, the control of subject increases by this move. Subject formerly owed his allegiance to the SBONR organization and was considered a "joint" agent. He has now disassociated himself from SBONR and has agreed to work for the American Intelligence Service in the capacity indicated above.

3. Attached is complete PRQ Part II on subject. We have been advised that polygraph test results were negative.
